

AGENDA
Interagency Meeting (IDEM, EPA, Corps, IN DNR, USFWS)
January 12, 2006, 8:00 am - 12:00 pm
Indiana State Library, Room 401

- I. Introductions
- II. Current Events
 - Who is doing what
 - Emerging issues
- III. Regulatory
 - Improving early coordination on large, complex projects
 - Determining what is a "single complete project"
 - Excavation of creek rock from within streams with heavy equipment. (Jon Eggen from DNR Fish and Wildlife)
 - Jurisdictional issues, including isolated, one-step and above OHWM calls; what are IDEM's options if they disagree with a call (e.g., one-step excavation, jurisdiction, etc.) made by the federal agencies?
 - Coal mining—NWP 21; IN RGP on coal
 - GP/NWP and application on highway projects
 - What should the Federal agency involvement be in IDEM's Standard Operating Procedure development and Non-rule Policy development, some of which may affect the 401?
- IV. Mitigation
 - Ducks Unlimited In Lieu Fee interest—Detroit District
 - Stream mitigation
 - Mitigation Banks; what is the status of the banks in the Louisville and Detroit Districts?
- V. Enforcement
 - Compliance and enforcement cooperation/enhancement
- VI. Data
 - Federal interest in access to IDEM data base
 - IDEM access (outside of firewall) to Corps data base
 - How can we encourage the development and sharing of geospatial data that benefits our programs (e.g., land use land cover, aerial photography, wetland mapping, digital elevation models, soil maps, etc.)?
- VII. Other
 - Training needs and partnerships

- Future meetings
